

Since 2018, **Palm'Data** is the combination of different skills to help companies working in the lifesciences industry (pharmaceuticals, cosmetics, medical devices) with the organization, protection and use of their regulatory data.

Despite a special context this year, **Palm'Data** will be present, from 7 to 10 December, at the **Biofit digital event 2020**.

***Palm'Data's** team is looking forward to welcoming you at its e-booth !*

## Palm'Data is :

### An expertise

**Palm'Data** define methods for organising, storing and using data, whatever the medium is (paper, electronic, sample, specimen) in accordance with its client's legal obligations and quality standards.

### Commitments

**Palm'Data** put its customers at the heart of its concerns. Establishing a relationship based on trust, listening to them and offering them the highest level of quality are values that all the team uphold on a daily basis.

### An experienced team

**Palm'Data's** team has 20 years of expertise in life sciences information and document management in a GxP environment.
